

# NIMBLE FOUNDATION

Corporate Training, English Speaking & Soft Skills

*Unleash Your Peak Potential*

# Who are we?

*Established in 2003, Nimble Foundation is an Institute dedicated to the field of education and Soft Skills Training. Training Programmes for Corporate, Faculty Development Programmes for Colleges, and Soft Skills training programmes for Students. In-house Learning & Development Programmes at the Foundation's Nariman Point, Mumbai Learning Centre.*

NIMBLE Foundation was established for supplementing the educational effort of the higher education – schools and colleges. This was also formed with a view to make students job ready and build up their confidence. As it was felt that even professionals working in various industries needed mentoring and support for making them more proficient in their work and free from any kind of fear. Confidence and courage building exercises for students and professionals were devised. It is a continuous effort to keep on improving these exercises and procedures for the benefit of all.

NIMBLE has played an active role in the development of soft skills like Voice, Communication and Personality Development. The Foundation has done pioneering work through its 'Voice Culture & Speaking Skills programme that has helped hundreds of people bring about an all round improvement in their voice and communication skills.

We are now working with leading educational institutions in bringing about a positive change in the education system through a qualitative improvement of teaching and training methods.

Reaching out to the under-privileged section of the society and rendering all necessary help to deserving, talented persons for developing their skills will also be the focus of NIMBLE.

## Our Mission

Helps students and others to realize their full potential.

## Our Vision

A society where each one is devoted to their duty, accept themselves as they are and are happy.
